NOVELTIES -- 1934

MRS. FRANKLIN DELANO ROOSEVELT

(DePetris)

A large, bright yellow chrysanthemum maturing about November 15th.

Properly grown, this flower is unsurpassed in all commercial qualities. Its color, form and keeping qualities are superb; but careful growing is required to overcome a tendency towards weakness in the stem. The plant is vigorous and grows very tall, but for best results must not be planted too late.

We predict this variety will become popular among those who grow it carefully and well.

Price: \$15.00 per 100 \$125.00 per 1000

JOAN WELLS

Sport of Pink Dot and similar to it excepting that in the flower, bronze replaces dark pink and straw color replaces light pink. Like its parent, it is most effective when cut early.

Price: \$12.00 per 100 \$100.00 per 1000

BRONZE VOLUNTEER

A rich bronze Anemone to be grown in sprays—sport of Volunteer. A novel color—very acceptable to the retail trade. We believe this is worth while.

Price: \$12.00 per 100 \$100.00 per 1000

Pompons—Large Flowering and Button Types

Under the heading of type, we attempt to classify pompons into large pompon and button types. The distinction is largely one of size, though the latter classification contains more of the true, compact, rounded type than the former.

CARNATION ROOTED CUTTINGS

“JOAN MARIE”

PLANT PATENT No. 3
(October 20th, 1931)

The Sensational NEW WHITE CARNATION To Be Disseminated in 1934

CHARACTERISTICS OF GROWTH AND HABIT OF JOAN MARIE

Following is Description Of Introducers

1. The flower is of unusual size; much larger than existing varieties. It has a high, full center and is very fully petalled, thus giving to the flower a fine formation. It is the largest white carnation that has ever been offered to the trade. Its size is apparent at the beginning of the season and continues throughout the entire season.

2. The color is pure white, and neither fumigation, nor unseasonable weather at any time of the year affects its color. It never shows any pink stripes or gets off-color.

3. The calyx is very large and full, and because of its formation JOAN MARIE does not split to any extent. Splitting does not even have to be considered in this variety. Those who have seen it say that JOAN MARIE has “the perfect calyx.”

4. JOAN MARIE produces flowers of excellent quality. The unusual demand for them in the markets and the prices paid for them show without question that JOAN MARIE is a quality carnation.

5. The flowers are borne on strong, sturdy stems of unusual thickness, and the leaves are much broader than any carnation we have ever seen. JOAN MARIE is not a “grassy” grower.

6. JOAN MARIE’S excellent keeping qualities have accounted in no small measure for its tremendous popularity. Retail florists have kept JOAN MARIE for as long as three weeks and then used the flowers at the end of that period.

7. JOAN MARIE is a wonderful shipper. We have regularly shipped it during the entire season as far north as the Canadian border and as far south as Georgia with excellent results.

PRICES

100 to 1000....\$12.50 per 100

1000 and up....\$100.00 per 1000
